

SFN 533-1

Material: zama

Processing: burnished and painted black

Notes construction techniques and quality

Metal platform for locomotive 221-001 with illuminated lanterns. The platform is complete with plastic buffers (collectors series) lanterns with slides and decal. The article is not illuminated; to illuminate the platform, items 102214 (current-capture slats with screw) and 102005 (micro bulbs) are required
